

HOW TO PAINT CITADEL MINIATURES:

DARK VENGEANCE

DARK VENGEANCE

HOW TO PAINT: DARK VENGEANCE

USING THIS GUIDE

On the following pages you will find a step-by-step guide to painting the Citadel miniatures showcased in this article. In each case you will see a quick reference guide to painting the featured model. While these guides make a great starting point, you will find far more detailed information on the Citadel paints, tools and techniques featured here in *How To Paint Citadel Miniatures*. For best results we heartily recommend that you keep your copy near to hand while following these guides.

To one side of every page that showcases a model's paint scheme you will see our quick reference guide. This is laid out in numbered steps and gives you the basic information required to paint your models so that they match those shown.

The top part of each step of the reference guide points out the Citadel paint, wash or glaze in use, while the bottom refers to the specific type of Citadel paintbrush that is being utilised. The small band of colour on the left of the brush name is colour coded to match the ends of the brushes in your Citadel Brush collection, making it even easier to pick the correct tool.
